ENTRY FORM – CIO CHOICE 2024

Note: that only authorized company personnel/ officials can enter on behalf of the product, service, and/ or solution category, any entries found to be otherwise will be disqualified, irrespective of it being any stage of the process.

Please complete this form and send to contact@core-mediagroup.com
If you have any questions about the entry form, please feel free to contact us on +91 22 46080974

1) CONTACT INFORMATION

Contact First Name	
Contact Last Name	
Title (Mr./ Ms./ Miss/ etc.)	
Contact Email	
Contact Telephone No	
Contact Mobile Phone	

2) COMPANY INFORMATION

Company Name				
Company Address				
Billing Address				
City				
State				
Postal Code/ ZIP				
Country				
Company Category	☐	Large Enterprise*	☐	Small & Medium Enterprise
Telephone No				
GST Number				
PAN Number				

*To qualify as a Large Enterprise, the company needs to have >500 employees or an Annual Turnover of $\geq$ US$ 15m in the Indian geography.

3) PRODUCT/ SERVICE/ SOLUTION DETAILS

Product/ Service/ Solution Name	
Brand Name (if different from above)	
Recognition Category (Please select from Category list below)	
Date of Submission of Entry	
Date of Launch of Product/ Service/ Solution	
Telephone No	

ENTRY FORM – CIO CHOICE 2024

NOTE:*If your Product/ Service/ Solution does not fit any of the categories listed below, then please contact us on contact@core-mediagroup.com and we will incorporate it in the list subject to it being appropriate.*

4) PRODUCT/ SERVICE/ SOLUTION DESCRIPTION

You are requested to write a short description in the space below of your product/ service/ description, its innovative features & benefits and uniqueness in the ICT market. Please articulate and keep it simple, clear and concise. If your paragraph exceeds 100 words we reserve the right to reject your application.

Authorized Signatory Name & Signature	Company Stamp/ Round Seal

- *Entry fee (non-refundable) for each product, solution and/ or service: INR. 70, 800.00 (INR. 60,000 + 18% Goods & Service Tax)*
- *For multiple entries, please multiply the number of entries with the entry fee.*
- *If your product, solution and/ or service are recognized then the license fees will be applicable mandatorily. Please refer to our Terms & Conditions section on the website and copy sent to you along with this entry form.*

Please send the cheque/ pay order/ demand draft to –

CENTRE OF RECOGNITION AND EXCELLENCE PRIVATE LIMITED
3037 - A wing, 3rd floor, Oberoi Estate Gardens,
Chandivali, Andheri (East),
Mumbai – 400072
INDIA
Tel: +91 22 46080974

ENTRY FORM – CIO CHOICE 2024

A)   SOFTWARE VENDOR CATEGORIES

Sr. No	Software Vendor Categories	Description
A1	Customer Relationship Management	Recognizes the preferred software solution designed to expand a company's knowledge and relationships with its current or potential customers and/or partners. Includes CRM, PRM, SFA, marketing automation, personalization products and services.
A2	Supply Chain Management	Recognizes the preferred solution for coordination and collaboration with suppliers, partners, external service providers, and customers. The solution could include tracking of goods from sourcing raw materials, through manufacture, scheduling and delivery to the end customer.
A3	Content Management	Recognizes the preferred software solution that enables the creation, management and modification of information on the web, intranet, or other information resource. This includes content creation, categorization, workflow, publishing and delivery tools.
A4	Database Solution	Recognizes the preferred solution for the storage, organization, management, search and retrieval of large quantities of data in a business environment for any range or combination of activities, including financial, contact, records management, research, documents, and other sources.
A5	Document Management	Recognizes the preferred software solution/ service for managing the document life cycle, including the processes of retrieving, sharing, tracking, revising, and distributing documents and the information they contain.
A6	Business Intelligence	This category is for Business Intelligence and Knowledge Management applications that have enabled businesses to gain an advantage from understanding, measuring and capitalizing on the information they already possess in the organization to enhance and better their businesses.
A7	Unified Communications & Collaboration	Recognizes the preferred software solutions that enable organizations to improve their internal and external communications and collaboration activities, software solutions that integrate with communications technologies to transform the operations and business processes of the customer.
A8	End Point Compression	Recognizes the preferred software vendors who have developed image compressions and capturing information at the Point of Transaction from virtually anywhere, and delivering it to enterprise applications thereby accelerating processes, minimizing latency, speeding transactions and reducing processing costs for better service.
A9	Application Development Platform	Recognizes the preferred software vendors who have an application development platform that enables ISVs to rapidly develop solutions.
A10	Application Delivery Platform	Recognizes the preferred hosting and cloud service providers who offer a delivery platform for ISVs to host and market their applications backed with scalability, and additional services for ISVs, such as security, storage, business continuity, market place and ecommerce.
A11	Enterprise Application Integration	Recognizes the preferred provider of Enterprise Application Integration
A12	Big Data Solution	Recognizes the preferred solution for the storage, organization, management, search and retrieval of data so large and complex that it becomes difficult to process using on-hand database management tools or traditional data processing applications in a business environment for any range or combination of activities, including financial, contact, records management, research, documents, and other sources.
A13	Business Analytics	Recognizes the preferred provider of Business Analytics Product and/ or Solution.
A14	Secondary Sales Data Analysis	Recognizes the preferred provider of Secondary Sales Data Analysis and/ or Solution.
A15	Enterprise Email	Recognizes the preferred provider of Enterprise Email Solution.
A16	Contact Center Solution	Recognizes the preferred provider of Contact Center Solution.

ENTRY FORM – CIO CHOICE 2024

A17	HR & Global Payroll	Recognizes the preferred provider of HR & Global Payroll Solutions.
A19	Hospital Information Software (HIS)	Recognizes the preferred provider of Hospital Information Software (HIS)
A20	SD-WAN Platform	Recognizes the preferred provider of SD-WAN platform
A21	Enterprise Resource Planning	Recognizes the preferred provider of Enterprise Resource Planning solutions.
A22	Intelligent Analytics	Recognizes the preferred provider of Intelligent analytics solutions
A23	Cloud Infrastructure Software	Recognizes the preferred manufacturer of software components that are needed to support the computing requirements of a cloud computing model
A24	Multi Cloud Management Platform	Recognizes the preferred solution provider of a multi cloud management platform that offers a single management platform for all apps, data, and hybrid multi cloud services.

B) CLOUD SERVICES VENDOR CATEGORY

Sr. No.	Cloud Services Vendor Categories	Description
B1	Public Cloud	Recognizes the preferred product/solution that delivers a public-cloud-based solution to organizations large or small. The product or solution must demonstrate competitive advantage and a measurable ROI to the end-users of the service.
B2	Private Cloud	Recognizes the preferred product/solution that delivers a private-cloud-based solution to organizations large or small. The product or solution must demonstrate competitive advantage and a measurable ROI to the end-users of the service.
B3	Hybrid Cloud	Recognizes the preferred product/solution that delivers a hybrid-cloud-based solution to organizations large or small. The product or solution must demonstrate competitive advantage and a measurable ROI to the end-users of the service.
B4	Mobile Cloud	Recognizes the preferred provider of Mobile Cloud solutions.
B5	Community Cloud	Recognizes the preferred product/solution that delivers a community-cloud-based solution to organizations large or small. The product or solution must demonstrate competitive advantage and a measurable ROI to the end-users of the service.
B6	Multi Cloud	Recognizes the preferred provider of multiple cloud computing and storage services in a single heterogeneous architecture.
B7	Hybrid Multi Cloud	Recognizes the preferred provider of Hybrid multi-cloud that pulls together multiple clouds and provides the tools to ensure interoperability between the various services in hybrid and multi-cloud solutions.
B8	Cloud Media	Recognizes exceptional efforts in optimizing and seamlessly transitioning media workflows onto cloud platforms.
B9	Multi Cloud Connect	Recognises the solution that provides Multi Cloud Connect thereby, reducing the egress cost by using dedicated connections from edge, leading to more cost savings. It also provides a single pane of glass view to enable complete visibility into the network architecture for greater control and agility. It leverages deterministic routing to ensure that performance is never compromised.

C) HARDWARE, NETWORK & STORAGE VENDOR CATEGORIES

Sr. No.	Hardware, Network & Storage Vendor Categories	Description
C1	Networking –Active	Recognizes the preferred product/solution in the active network components market. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.

4

C2	Networking – Passive	Recognizes the preferred product/solution in the passive network components market. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.
C3	Storage – Hardware	Recognizes the preferred hardware product/solution in the IT storage market sector. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.
C4	Storage – Software	Recognizes the preferred software product/solution in the IT storage market sector. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.
C5	Cloud Storage	Recognizes the preferred cloud product/solution in the IT storage market sector. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.
C6	Servers	Recognizes the preferred manufacturer of future and next generation servers in the market sector.
C7	Thin Client	Recognizes the preferred manufacturer of future and next generation thin clients in the market sector.
C8	Thick Client	Recognizes the preferred manufacturer of future and next generation thick clients in the market sector.
C9	Laptop	Recognizes the preferred manufacturer of future and next generation laptops in the market sector.
C10	Tablet	Recognizes the preferred manufacturer of future and next generation tablets in the market sector.
C11	Mobile Device	Recognizes the preferred manufacturer of future and next generation mobile devices in the market sector
C12	Multifunction Device (MFD)	Recognizes the preferred manufacturer of future and next generation multifunctional **printers**, **all-in-one** (AIO), or **Multifunction Device (MFD)** in the market sector.
C13	Storage Virtualization	Recognizes the preferred virtualization product/solution in the IT storage market sector. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the product.
C14	General Purpose Disk Arrays	Recognizes the preferred manufacturer of General Purpose Disk Arrays that are designed to address shared storage requirements within a single system that can support multiple virtual or physical servers, hosted virtual desktop (HVD) infrastructures, multiple databases and files.
C15	Internet Of Things (IoT)	Recognizes the preferred provider of IoT - The network of physical objects or "things" embedded with electronics, software, sensors, and network connectivity, which enables these objects to collect and exchange data.
C16	Graphics Workstation	Recognizes the preferred manufacturer of workstations configured for graphics works such as image manipulation, bitmap graphics, vector graphics, etc. type applications for high end computing. Such work requires a powerful CPU and a high-resolution display.
C17	Cloud Infrastructure - Hardware	Recognizes the preferred manufacturer of hardware components that are needed to support the computing requirements of a cloud computing model
C18	Enterprise Flash Storage	Recognizes the preferred manufacturer of flash storage for enterprises.
C19	Network Transformation	Recognizes the preferred provider for Network Transformation
C20	Scanner	Recognizes the preferred manufacturer of scanners.
C21	Desktops	Recognizes the preferred manufacturer of desktops.
C22	Displays Monitor	Recognizes the preferred manufacturer of display monitors.
C23	Performance Workstations	Recognizes the preferred manufacturer of high-performance workstations.
C24	Print & Cartridge Solution	Recognizes the preferred provider of printer and cartridge solutions

ENTRY FORM – CIO CHOICE 2024

D) DATA CENTER & IT INFRASTRUCTURE VENDOR CATEGORIES

Sr. No.	Data Center & IT Infrastructure Vendor Categories	Description
D1	Data Center Power (UPS)	Recognizes the preferred product/solution that addresses the power requirements of the modern IT data center. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the service in their Data center environment.
D2	Data Center Cooling	Recognizes the preferred product/solution that addresses the cooling requirements of the modern IT data center. The product or solution must demonstrate competitive advantage and a measurable ROI to the users of the service in their Data center environment.
D3	Data Center Managed Services Provider	Recognizes the preferred provider of hosting/co-location services to end-user organizations/service providers that have a tangible benefit either in terms of cost savings or efficiency gains.
D4	Enclosure Systems	Recognizes the preferred provider of future-oriented enclosure technologies with perfection in ergonomics and handling.
D5	Data Center Infrastructure Management	Recognizes the preferred provider of IT and Facility Management disciplines to centralize monitoring, management and intelligent capacity planning of a data center's critical systems.
D6	Data Center Consultant	Recognizes the preferred provider of consultancy services with core competencies in data centre - design, safety engineering, building services and network technology.
D7	Data Center Transformation Services	Recognizes the preferred provider of Data Center Transformation Services.
D8	Infrastructure Appliance	Recognizes the preferred provider of Infrastructure Appliance that enables true, real-time, integrated monitoring, access and control across IT and facilities systems in the data center.
D9	Power Distribution	Recognizes the preferred provider of reliable and efficient Power Distribution Units (PDUs).
D10	Enterprise Infrastructure Automation Services	Recognizes the preferred provider of Enterprise Infrastructure Automation Services.
D11	Integrated Data Center Solution	Recognizes the preferred provider of tailored solutions and services that help to efficiently & intelligently detect and respond to a wide variety of events that can threaten data centers' business continuity and profitability – all in compliance with regulatory requirements.
D12	DRaaS	Recognizes the preferred provider of Disaster Recovery-as-a-Service that allows organizational workloads to be replicated from virtual or physical environments to high-availability cloud infrastructure to ensure business continuity.
D13	Hyper-Convergence	Recognizes the preferred provider of infrastructure systems with a software-centric architecture that tightly integrates compute, storage, networking and virtualization resources and other technologies from scratch in a commodity hardware box supported by a single vendor.
D14	Converged Infrastructure	Recognizes the preferred provider who is using an approach to data center management that seeks to minimise compatibility issues between servers, storage systems and network devices while also reducing costs for cabling, cooling, power and floor space.
D15	Infrastructure Sustenance Services	Recognizes the preferred provider of Infrastructure Sustenance Services.

D16	Infrastructure Transformation Services	Recognizes the preferred provider of Infrastructure Transformation Services.
D17	Realtime Automatic Resource Adjustment	Recognizes the preferred provider of Real time Automatic Resource Adjustment with a built-in ability to automatically scale CPU and RAM on-demand.
D18	Engineered Solutions – Reference Architecture & Appliances	Recognizes the preferred provider of validated solutions - simplify the complex by reducing the "trial and error" guesswork, typically associated in running datacenter infrastructure. It works to comprehensively design and test engineered solutions and reference architectures, to meet varying consumption, design point and scale needs. The end result is greater efficiency, less risk and lower operating costs.
D19	Data Center IT Management	Recognizes the preferred provider of Data Center IT Management.
D20	Colocation	Recognizes the preferred provider of colocation services.
D21	Hyper-scale Data Center	Recognizes the preferred provider of hyper scale data center services catering to the complexity of new workloads and increasing demand from consumers - different server, network and IT needs.
D22	Structured Cabling	Recognizes the preferred provider of structured cabling.
D23	Edge Computing Infrastructure	Recognizes the preferred provider of Edge Computing Infrastructure
D24	Integrated Infrastructure Services	Recognizes the preferred provider of Integrated Infrastructure Services
D25	Hybrid Multi Cloud Infrastructure	Recognizes companies that offer tools, solutions and services for Hybrid Multi Cloud Infrastructure
D26	Edge Data Center	Recognizes the preferred provider of edge data center (small data center), located close to the edge of a network.
D27	Hyper Converged Appliances	Recognizes the preferred provider of Hyper Converged Appliances
D28	Hyperconvergence Software	Recognizes the preferred provider of Hyperconvergence Software
D28	Interconnection Data Centre	Recognizes the preferred provider of Interconnection Data Centre service / Solution
D29	Infrastructure Finance Modelling	Recognises the preferred partner who structures and creates a finance model including leasing and purchase of infrastructure for new age digital solutions

E) SECURITY VENDOR CATEGORIES

Sr. No.	Security Vendor Categories	Description
E1	Information Security	Recognizes the preferred provider of a full range of information security products and services.
E2	Cloud & Virtualization Security	Recognizes the preferred provider of a full range of cloud and virtualization security products and services.
E3	Managed Security Services	Recognizes the preferred provider of a full range of managed security services.
E4	Network Security	Recognizes the preferred provider of a full range of network security services.
E5	Data Protection Solutions	Recognizes the preferred provider of comprehensive, simple and flexible data protection solutions.
E6	Endpoint Security	Recognizes the preferred provider of endpoint security.
E7	Managed Cyber Threat Detection Services	Recognizes the preferred provider of a full range of managed cyber threat detection services.
E8	DNS Security	Recognizes the preferred provider of DNS security.
E9	Security- as-a-service	Recognizes the preferred provider of security as a service
E10	Identity Access Management (IAM)	Recognizes the preferred provider of Identity and access management (IAM) covering products, processes, and policies used to manage user identities and regulate user access within an organization.

E11	Threat management platform	Recognises the preferred product/ solution for threat management as an approach to information security where a single hardware or software installation provides multiple security functions.
E12	DevSecOps	Recognizes DevSecOps solution providers
E13	Application Security	Recognizes the preferred solution provider of Application security
E14	Breach & Attack Simulation (BAS)	Recognizes the preferred solution of Breach and Attack Simulation (BAS) Tools that enable organizations to gain a deeper understanding of security posture vulnerabilities by automating testing of threat vectors such as external and insider, lateral movement, and data exfiltration.
E15	Cloud SOC	Recognizes the solution that provides foundational identification, alerting, and remediation guidance for threats to your cloud environment.
E16	Cyber Resilience as-a-service	Recognizes the preferred service provider in cyber resilience
E17	Ransomware Recovery platform	Recognizes the preferred service provider in Ransomware Recovery

F) TELECOM SERVICES VENDOR CATEGORIES

Sr. No.	Telecom Services Vendor Categories	Description
F1	Telecom Carrier (Leased Lines)	Recognizes the preferred provider of telecom services for Internet services - leased lines, etc.
F2	Telecom Carrier (Mobile access)	Recognizes the preferred provider of telecom services for Internet services via Mobile / wireless / data cards etc.
F3	Telecom Carrier (International Access)	Recognizes the preferred provider of telecom services for global services.
F4	Cloud Telephony	Recognizes the preferred provider of hosted telephony solutions like hosted IVR, number privacy, lead management, televoting, etc.
F5	SIP Trunk	Recognizes the preferred provider of SIP trunking services to deliver fixed telephony to enterprises.
F6	Rich Business Messaging	Recognises preferred service provider of advanced messaging solutions that allows businesses to enhance their communication with customers through interactive, rich media messages.

G) RISK MANAGEMENT VENDOR CATEGORIES

Sr. No.	Risk Management Vendor Categories	Description
G1	Disaster Recovery (DR)	Recognizes the preferred provider of DR services.
G2	Business Continuity Planning (BCP)	Recognizes the preferred provider of BCP services.
G3	Governance Risk and Compliance	Recognizes the preferred provider of governance risk and compliance services.
G4	Business Service Continuity and Availability Management	This category recognizes the preferred vendor of 'Business Service Continuity and Availability Management' products that have addressed Real -Time visibility into Business Service Availability Assurance, Orchestration and Automation challenges; and have enabled better Real-time enterprise visibility to the CIOs in providing an architectural view of Business-IT relationship, calculating impact from financial perspective and providing Live BIA considering the interdependencies among different Applications' availability. This includes Financial Impact of any IT

		disruption, Automated Application dependency Discovery & Application Mapping and keeping them Real time for any changes, Single Click Switchover/Switchback/Failover through Mobile
G5	Resiliency Automation Platform	Recognizes the preferred provider of Resiliency Automation Platform that brings together recovery, data protection, business continuity and data migration/replication into a single, unified and the most comprehensive resiliency automation platform across on-premises, hybrid, and multi-cloud environments.

H) SYSTEM INTEGRATION VENDOR CATEGORIES

Sr. No.	System Integration Vendor Categories	Description
H1	System Integrator	Recognizes the preferred systems integrator.

I) DATA RECOVERY VENDOR CATEGORIES

Sr. No.	Data Recovery Vendor Categories	Description
I1	Data Recovery Solutions	Recognizes the preferred data recovery solutions provider for products and services.
I2	Zero Trust data Management	Recognises the preferred Zero trust product/ solution as a viable mechanism for data management against ransomware.
I3	Ransomware Recovery platform	

J) VIRTUALIZATION VENDOR CATEGORIES

Sr. No.	Virtualization Vendor Categories	Description
J1	Desktop Virtualization	Recognizes the preferred desktop virtualization solutions/ services provider.
J2	Server Virtualization	Recognizes the preferred server virtualization solutions/ services provider.
J3	Virtual Workforce Solutions	Recognizes the preferred virtual workforce solutions/ services provider.

K) IT SERVICES VENDOR CATEGORIES

Sr. No.	IT Services Vendor Categories	Description
K1	Database Solution Support Services	Recognizes the preferred provider of a full range of database support services and the range of models it provides for all types of customers including onsite and remote and hybrid.
K2	Application Managed Services	Recognizes the preferred provider of a full range of managed application services across multiple platforms and the range of models it provides for all types of customers including onsite, remote and hybrid.
K3	Quality Testing Services	Recognizes the preferred provider of a full range of quality testing services across multiple platforms and the range of models it provides for all types of customers including onsite, remote and hybrid.
K4	Managed IT Services	Recognizes the preferred provider of a full range of managed IT services wherein monitoring /service desk /vendor management are done on site and the rest of services are managed by remote team.
K5	Service Assurance Program (Onsite Technical Support)	Recognizes the preferred provider for high tech technical support model where all the levels of expertise (L1/L2/L3) are made available onsite to manage the customer escalation and SLA.

K6	Managed Network Services	Recognizes the preferred provider of a full range of end-to-end network services including day-to-day operation and management of the entire network infrastructure.
K7	Network Maintenance Services	Recognizes the preferred provider of Break fix maintenance service support and SLA Management for Network OEM's.
K8	Content Delivery Network	Recognizes the preferred provider of a full range of content delivery network or content distribution network to end-users with high availability and high performance.
K9	Reverse Inventory Logistics	Recognizes the preferred provider of a full range of Reverse Inventory Logistics.
K10	Information Technology Audit	Recognizes the preferred provider of a full range of audit services for Information Technology.
K11	Managed Print Services	Recognizes the preferred provider of a full range of managing print services.
K12	Managed Document Services	Recognizes the preferred provider of a full range of managing document services.
K13	SD-WAN Services	Recognizes the preferred provider of SD Wan services
K14	Managed WiFi	Recognizes the preferred provider of managed wi-fi.
K15	Cloud EMail Implementation	Recognizes the preferred provider of Cloud EMail Implementation
K16	Remote infrastructure monitoring service - RIMS	Recognizes the preferred provider of RIMS.
K17	Data Backup Services	Recognizes the preferred provider of data back up services.
K18	DevOps	Recognizes DevOps solution providers

L) SaaS and CLOUD SOLUTIONS VENDOR CATEGORIES

Sr. No.	SaaS and Cloud Solutions Vendor Categories	Description
L1	Core Banking Cloud Solution	Recognizes the preferred provider of a full range of core banking cloud solutions.
L2	Talent Management Cloud Solution	Recognizes the preferred provider of a full range of talent management cloud solutions.
L3	Travel & Expense Management Cloud Solution	Recognizes the preferred provider of a full range of travel & expense management cloud solutions.
L4	Logistics Supply Chain Cloud Solution	Recognizes the preferred provider of a full range of Logistics Supply Chain Cloud Solutions.
L5	IT Operations Management	Recognizes the preferred provider of a full range of IT Operations Management Solutions.
L6	E Procurement	Recognizes the preferred provider of E Procurement Solutions
L7	Human Resources Management Cloud Solution	Recognizes the preferred provider of Human Resources Management Cloud Solution
L8	Continuous learning Platform	Recognizes the preferred provider of Continuous learning Platform
L9	DaaS (Desktop as a Service)	Recognizes the preferred provider delivering virtual desktops to end users over the Internet, licensed with a per-user subscription
L10	Smart Workflow	Recognizes companies that offer smart and intelligent workflow software and solutions
L11	Storage -as-a-service	Recognizes companies that offer storage-as-a-service
L12	Data Warehouse	Recognizes (cloud) Data warehouse solution providers
L13	Data Driven Solutions	Recognizes the preferred provider of a Data Driven Solutions.

M) Advisory & Research VENDOR CATEGORIES

Sr. No.	Advisory & Research Vendor Categories	Description

M1	IT Advisory	Recognizes the preferred provider of a full range of IT Advisory Services.
M2	Business Technology Research	Recognizes the preferred provider of a full range of Business Technology Research.

N) Emerging Technologies VENDOR CATEGORIES

Sr. No.	Emerging Technologies Vendor Categories	Description
N1	Augmented Reality (AR)	Recognizes the preferred provider of augmented reality.
N2	Artificial Intelligence (AI)	Recognizes the preferred provider of artificial intelligence.
N3	Robotic Process Automation (RPA)	Recognizes the preferred provider of robotic process automation.
N4	Blockchain	Recognizes the preferred provider of blockchain.
N5	Digital Transformation Enabler	Recognizes the preferred provider for enabling Digital Transformation.
N6	Enterprise AI Assistance	Recognizes the preferred provider Enterprise AI Assistance.
N7	Machine Learning (ML)	Recognizes the preferred provider for Machine Learning.
N8	Virtual Reality (VR)	Recognizes the preferred provider of virtual reality.
N9	Digital Process Re-engineering Platform	Recognizes the preferred provider of Digital Process Re-engineering Platform.
N10	Mixed Reality	Recognizes the preferred provider of mixed reality
N11	Data Fabric	Recognizes the preferred provider of data fabric
N12	Application Modernization	Recognizes companies that provide tools, solutions and services for application modernization
N13	Infrastructure Modernization	Recognizes companies that provide tools, solutions and services for Infrastructure modernization
N14	Contact Center AI	Recognizes companies that provide AI-enabled contact center solutions.

O) Enterprise Mobility VENDOR CATEGORIES

Sr. No.	Enterprise Mobility Vendor Categories	Description
O1	BYOD and Device Management	Recognizes the preferred provider for BYOD and Device Management.
O2	Managed Mobility Services	Recognizes the preferred provider for Managed Mobility Services.
O3	Mobile Application Development	Recognizes the preferred provider for Mobile Application Development.
O4	Mobile Application Management	Recognizes the preferred provider for Mobile Application Management.
O5	Mobile Business Intelligence	Recognizes the preferred provider for Mobile Business Intelligence.
O6	Mobile Certification and Automation Services	Recognizes the preferred provider for Mobile Certification and Automation Services.
O7	Mobile Security	Recognizes the preferred provider for Mobile Security.
O8	Mobility Consulting	Recognizes the preferred provider for Mobility Consulting.
O9	Enterprise Field Activity Management	Recognizes the preferred provider for Enterprise Field Activity Management

P) Collaboration and Work From Home VENDOR CATEGORIES

Sr. No.	Collaboration and Work from Home Vendor Categories	Description
P1	Team Communication	Recognizes the preferred provider for team communication tools and solutions for remote/ home users.
P2	Video Conferencing	Recognizes the preferred provider for video conferencing tools.

P3	Audio Conferencing	Recognizes the preferred provider for audio conferencing tools.
P4	Instant Messaging	Recognizes the preferred provider for instant messaging tools.
P5	Productivity Management	Recognizes the preferred provider for remote management of employee productivity.
P6	Internet Connectivity	Recognizes the preferred provider of internet connectivity for home users.
P7	Home UPS	Recognizes the preferred manufacturer of UPS devices for home users.
P8	Home Inverter	Recognizes the preferred manufacturer of inverter devices for home users.
P9	Work Space Management	Recognizes companies that provide software for management and optimization of workspaces
P10	Secure Remote Workspace Access	Recognizes companies that offer security solutions/software that enable remote users to securely access corporate data, applications and assets.
P11	Hybrid Workplace Solution	Recognizes companies that offer
